Avery Chen

Junior Data Analyst
avery.chen@example.test | Halifax, Canada

Junior Data Analyst with hands-on pandas experience cleaning museum attendance CSVs and preparing monthly charts, plus university coursework in SQL joins and aggregation. Ready to apply that foundation to validating tabular data, investigating inconsistent records, and explaining findings and limitations to research partners; ready to learn Tableau or Power BI for reporting.

Work Experience

Volunteer Data Assistant

January 2024 – June 2024

Seaside Museum

Used pandas to clean CSV attendance records and prepared monthly charts with notes on excluded entries. Explained chart patterns and data exclusions to museum volunteer coordinators.

Education

Bachelor of Mathematics, completed 2023

North Coast University

Skills

Python and data preparation: Python (pandas), CSV data cleaning, Notes on excluded entries

SQL coursework: Joins, Aggregation

Analysis and communication: Monthly charts, Explaining chart patterns and data exclusions
