Avery Chen

Junior Data Analyst

avery.chen@example.test | Halifax, Canada

Mathematics graduate with hands-on experience cleaning CSV attendance records in pandas and preparing monthly charts with notes on excluded entries. Brings SQL joins and aggregation coursework and experience explaining chart patterns and exclusions to museum volunteer coordinators; seeks to apply this foundation to data validation and research reporting and is ready to learn Tableau or Power BI.

Experience

Volunteer Data Assistant

Seaside Museum

January–June 2024. Used pandas to clean CSV attendance records and prepared monthly charts with notes on excluded entries. Explained chart patterns and data exclusions to museum volunteer coordinators, giving context for interpreting the summaries and their limits.

Education

Bachelor of Mathematics

North Coast University

Completed 2023. Coursework included SQL joins and aggregation.

Skills

Python: pandas, CSV data cleaning

SQL coursework: joins, aggregation

Reporting: monthly charts, documenting excluded entries, explaining chart patterns
